

## **STUDY: Is It the Same Object I Just Saw?**

In this study, we are interested how people perceive and remember information.

You will view a continuous stream of everyday objects and make responses based on what you think about each one. Your eye movements will be recorded while you perform the task.

The experiment will take approximately 1.5 hours to complete.

You will receive up to \$20 for completing the experiment (\$12/hour plus up to a \$2 performance bonus).

### **Eligibility**

To participate, you must:

- Be 18-35 years old
- Have normal or corrected-to-normal vision (contact lenses are fine)
- Be comfortable sitting at a computer for about 1.5 hours (rests will be provided)

### **Exclusion Criteria**

You cannot participate if you have any of the following:

- Glasses with more than one power (bifocals, trifocals, progressives such as Varilux)
- History of eye surgery (corneal procedures such as LASIK or RK, cataract surgery, or intraocular implants)
- Eye movement or alignment abnormalities (lazy eye, strabismus, or nystagmus)
- Eyelid ptosis (drooping eyelid)
- Epiphora (excessive tearing or wet eyes)
