

STUDY: Is It the Same Object I Just Saw?

In this study, we are interested how people perceive and remember information.

You will view a continuous stream of everyday objects and make responses based on what you think about each one. Your eye movements will be recorded while you perform the task.

The experiment will take approximately 1.5 hours to complete.

You will be granted two hours of research credit for completing the experiment.

Eligibility

To participate, you must:

- Be 18-35 years old
- Have normal or corrected-to-normal vision (contact lenses are fine)
