

Participants Wanted!

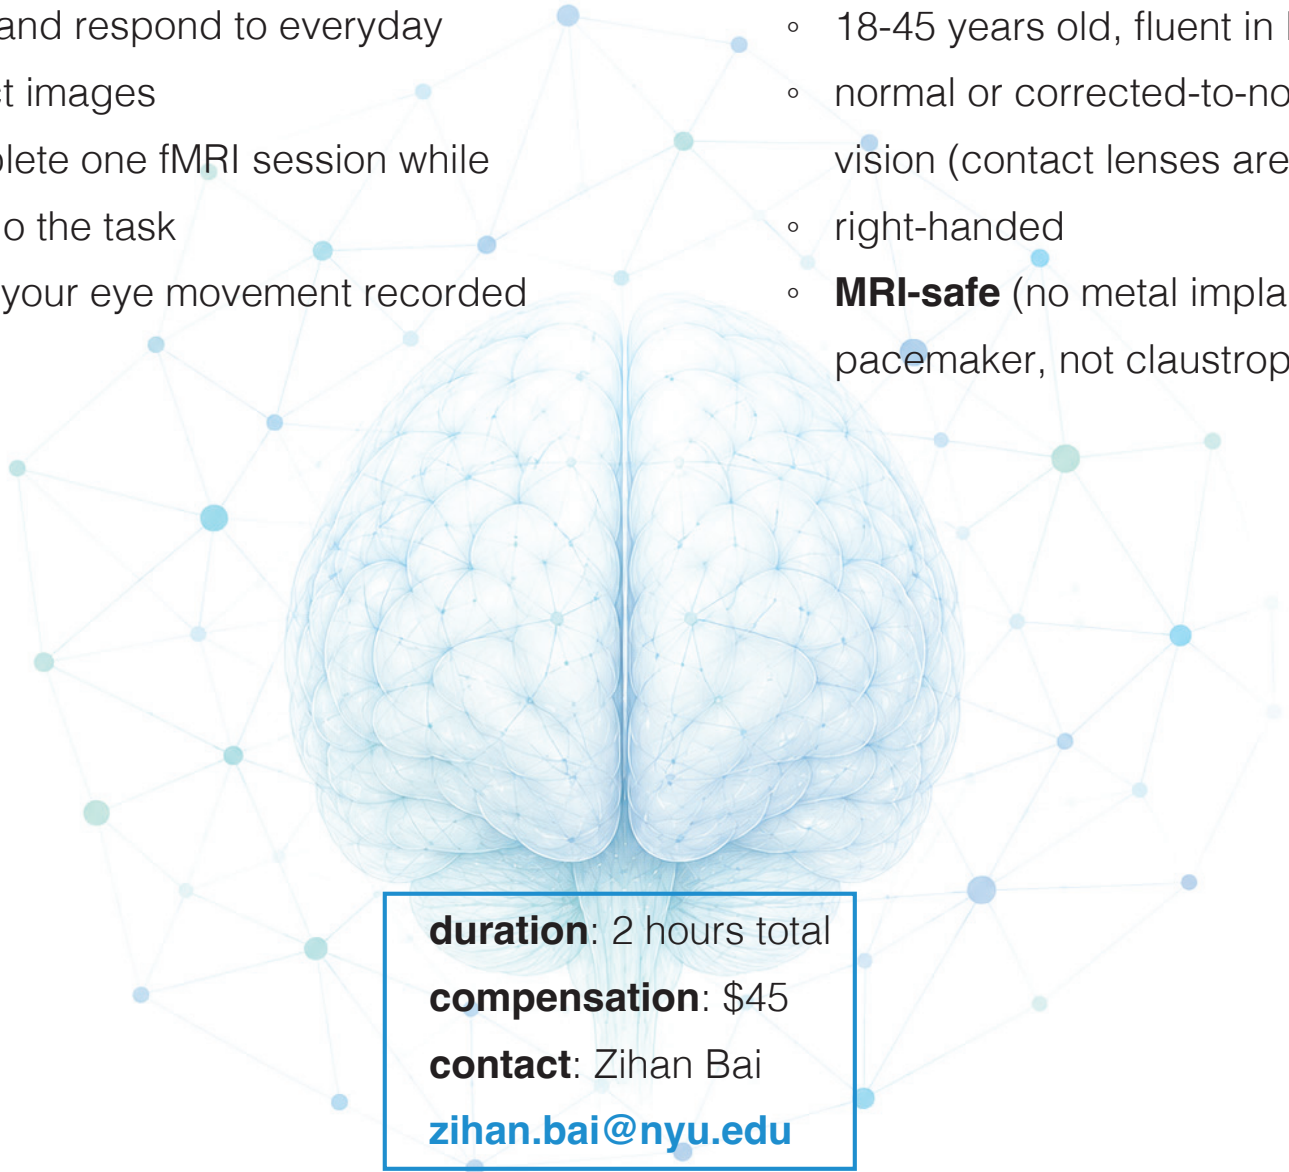

We are studying how people remember information in everyday life

Your Role

- view and respond to everyday object images
- complete one fMRI session while you do the task
- have your eye movement recorded

Requirements

- 18-45 years old, fluent in English
- normal or corrected-to-normal vision (contact lenses are fine)
- right-handed
- **MRI-safe** (no metal implants or pacemaker, not claustrophobic)

duration: 2 hours total

compensation: \$45

contact: Zihan Bai
